

Improve Business Processes By Streamlining PeopleSoft Across All Devices

PeopleUX Transforms **100%** of PeopleSoft Pages (Classic, Classic Plus, Fluid) to Deliver:

Higher Employee Engagement (HR)

Simplify transactions to improve application adoption and transaction completion

Better Student Outcomes (CS)

Improve self-service transactions to enable students, faculty, and advisors

Increase Productivity (SCM)

Remove clicks and add intuitive features to boost productivity

Process Efficiency (Finance)

Streamline transactions to reclaim time used for strategic objectives

Why **PeopleUX?** We Make *PeopleSoft Exceptional*

- **Modern Cloud-like User Experience**

Keep your existing customizations and get a cloudlike UX with minimal effort & expense

- **Mobility**

Turn static or adaptive pages fully responsive

- **Automatically handles Classic, Classic Plus, and Fluid Pages**

Deliver a maintenance-free consistent UX that is not effected by backend changes when updating / maintaining Peoplesoft Classic / Plus / Fluid pages

- **Fully ADA Compliant**

Cover every single page, including your customizations, to ensure that PeopleSoft is 100% accessible

- **Minimizes disruptive upgrades**

Move from maintenance-heavy customizations to UI-based configurations, minimizing the amount of required support and maintenance time

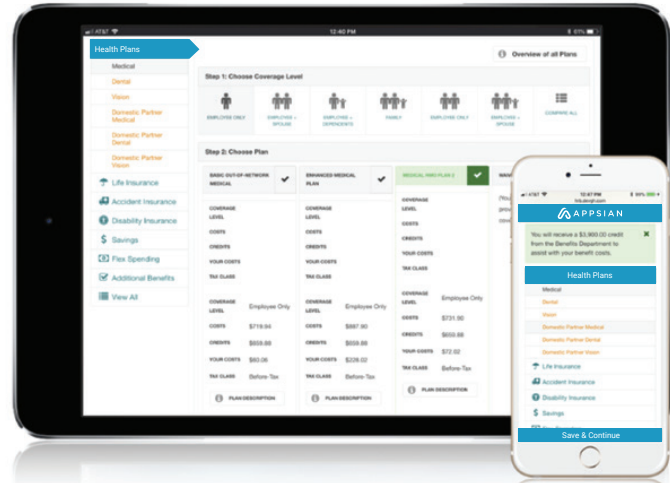

- **Helps you adopt Fluid UI, cost effectively**

Reduce your need to up-skill and smooth your migration path to Fluid
